EXPERIENCE

SOCIAL SAILOR | CITY HEAD - CHENNAI

Jun 2026 - Present | Chennai, India

- Own Chennai's operations and growth, including city-level execution, team management, and event-day operations across venues.
- Hire, onboard, and allocate Hosts, Pro-Hosts, and Volunteers based on bookings and event requirements.
- Schedule events across ticketing platforms (BookMyShow, District) and manage venue relationships, vendors, procurement, and inventory.
- Prepare the city P&L and weekly operational reports for the leadership team.

STARTUPTN | PROJECT ASSOCIATE INTERN

Feb 2026 - Sep 2026 | Chennai, India

- Coordinated logistics and data collection for international delegation visits (South Korea, AsiaBerlin, Pier71, Link Innovation), preparing Minutes of Meeting and follow-up reports.
- Led on-ground coordination for large-scale events, including the Google AI Hackathon, EyeInnovate Hackathon, CII Defence Conclave, and AI for Social Impact Program (with HCL and CED, Anna University).
- Managed data collection and portfolio building for the Gramam Thorum Puthozhil (GTP) magazine, and prepared post-event reports and social media summaries for stakeholders.

BANGALORE BIOINNOVATION CENTRE | PROGRAM ASSOCIATE

Aug 2024 - Nov 2025 | Bangalore, India

- Supported government-funded startup programs (WEscalate, SAMRIDH) and acted as the point of communication between startups and the program team.
- Assisted with program coordination, documentation, and presentations.
- Built partnerships with colleges through MoUs.

ALPHA AND OMEGA | UI / UX DEVELOPER

Aug 2023 - Jul 2024 | Bangalore, India

- Designed, developed, and maintained the company website.
- Managed social media and led outreach for their movie.

PEPUL | SOFTWARE ENGINEER - FRONTEND

Aug 2022 - Aug 2023 | Chennai, India

- Built a website from the ground up for Pepul's flagship AI product, plus an animated landing page for Pepul Creators.
- Developed campaign and landing pages, including an EV campaign, a "Shops Near Me" locator, and the Co-Creation platform with its first live project, Adityaram.

PROJECTS

AI-POWERED LEARNING MANAGEMENT SYSTEM

Building an AI-supported LMS portal with quick guidance, structured course access, and a responsive UI.
